PGL is pleased to announce its participation and exclusive USA representation for two great machining shops. These shops have approximately 2,000 employees and combined shop floor space of over 450,000 sq. ft. They have been making parts and assemblies for companies like Airbus, General Electric, Caterpillar and many other world class manufacturers. PGL is making this capability available to companies in the United States through our exclusive arrangement. Our shops can serve you whether you are looking for quality parts for production, or replacement parts for your MRO needs. PGL is headquartered in Cleveland, Ohio; and is your “one stop” choice for all your machined parts.
